The advent here today of the Democratic candidate for the Presidency was, of course, a subject of discussion.

The more confident feeling in relation to the processor explosive an expension of the strike will be taken advantage of by the professionals to unload these stocks if careful readdictions.

to the monetary outlook was strengthen-ed by the announcement of additional large engagements of gold for import, somewhat contrary to expectations. The foreign exchange market, after a slight further recovery, became easier and there was no actual change in money market

In view of the technical phases of the day's deplings the market presented a somewhat more irregular appearance than it had yesterday. Price movements were by no means so uniform. While the underlying tone of the market was one of pronounced strength, the trading was marked by a number of general reactions, and in some quarters positive weakness prevail-ed throughout the day. Conspicuously firm features of the market were the Atchisons. Union Pacific, Louisville and Nashville, Southern Railway preferred, Norfolk and Western, and Baltimore and Ohio. Even in the cases cited, however, the irregularity of movement already referred to was apparent also. The price movements in the granger shares and the other higher priced issues were limited and irregular. Sugar Refining. American Smelting, Na-

tional Tube, and the Tobacco stocks were firm features of the industrial quarter, but otherwise that department of the market was somewhat reactionary. market was somewhat reactionary. The boom in the stock market continued yesterday forenoon, and, in fact, until well Central on in the afternoon. The buying of stocks was heavy, and the advance in prices in Citizens. most cases good. The only problem now is whether the boom can be continued. It need not be improved. There has been no such a market for months as that of the past two days. Unfortunately the buying has not been of a particularly good char-acter, and for this reason it is more than possible that there may be a slump at any time. As has been said before, the professionals are making the market almost wholly. The public even under the spur of the advances does not come into the street. It remains to be seen if the profersionals will care to continue bidding up prices in the absence of public support. If anything should give them a scare a tumble in prices might occur that would be extremely distressing to them. The only reason why this professional element may persevere in its buying and why it is dangerous to predict a tumble in prices, is in the politics of the boom. It has been made to help the Republican ticket, and it is realized that a slump at this time would negative all that has been done, and prob-mbly even cause a reaction in political sentiment in the street. The last hour of the day was rather dull, and prices went off slightly. Naturally some people predicted that this would prove to be the beginning of a recession of importance.

The news of the day was not important but as far as it went it tended to confirm all the good things in the situation that en coming to light during the past week, although the present market is a manipulated one, and may be followed by a slump, there can be no doubt that a real

money rates. Yesterday's call loan rates were 3 to 3 1-2. There was nothing new in the coal strike situation, but the street believes that there is to be an end of it this week. More than this, it is said with this week. More than-this, it is said with the utmost confidence by officers and friends of the companies, that they have not lost any money by the strike, but rather probably have gained. Keene brok-ers, the Flowers, the Gates crowd, and the Tammany people were all said to be con-splenous in the market yesterday in their various macalities. various specialties.

Union Pacific common was perhaps the Advances of Monday -- Great Activity in the Railrond Shares. Chief feature of the market. Jersey Central is to a certain extent an exception to the general rule in the coalers at present. It is being bought by most important ifferests without doubt, and, more significant, there is little evi-dence of selling by these interests. The stock went up to 135 1-2 yesterday and closed at the top. The story is again re-vived that the Baltimore and Ohio-Penn-sylvania people are buying for control.

General Electric was one of the fea-tures of the market. It made the highest price of its record, 143, during the morn-ing. This stock has been conspicuous for a long time in its steady strength in good and poor markets. Its gains are all held well, the reactions with the general mar-ket being small. No other stock on the list has made so good a record in this regard during the past year.

Sugar boomed up to 122, and closed at Sugar boomed up to 122, and closed at 121 5-8, with a good gain for the day. Tobacco advanced to 93 7-8, and closed at 53 1-2. As is usually the case when Sugar has a spurt there was talk of an early return to the old 12 per cent annual dividend rate. As a matter of fact it is learned from a source that is con-sidered good that there is some likelihood of this story proving true this time. The advance in Tobacco was accompanied by talk of a deal of some kind.

The steel securities were somewhat weak after the first spurt. Steel and Wire common and Federal Steel common both went off a full point from their high from that quarter either.

In fact, the day's dealings at large might be regarded as a natural sequel to dividend, opening at 58 1-4, and closing

THE CHICAGO GRAIN MARKET. Wheat Firm Under Cable Advices

With Corn Stronger. CHICAGO, Oct. 16.-There was a moderate reaction in wheat on the compara tively steady tone of Liverpool cables, 1-4d lower, firmer Northwestern markets and resumption of mill operations. Shorts, however, were the principal buy-ers. Paris was unchanged to 3-4 lower. Manhattan is being bought by a speculative clique, but also there is good evidence of investment buying. The early completion of the electric motive plant is talked of with much confidence as a turning point in the history of the comcountry is progressing favorably. Pri-mary receipts and shipments were about 100,000 bushels less than last year; clear-ances 592,000 bushels. Cash sales here were 65,000 bushels, and the scaboard re-

ported twenty-four leads.

The corn market was strong. Buying by commission houses and local opera or. absorbed the offerings, which were very light all day. There was decided im-provement in the cash business, 450,000 bushels. Country acceptances were reported light; today's receipts were 750 cars, with 420 estimated for tomorrow. Exports sixty-one loads reported at the seaboard.

Oats were firm but not active, the volume of business was small, but there was an increase in outside buying orders for

ces. nfluenced by further weakness in the g market, provisions again ruled med-tely lower, and closed quiet at the de-ne. As yesterday, a good share of ding was between packers. There was

Went on a Visit to Philadelphia.

Last spring Mr. G. S. Wallace made a trip to philadelphia to visit his brother-in-law, and took with him a part of a bottle of Chamberlain's home. During the summer his brother-in-law took home. During the summer his brother-in-law took a very sever cold and used the Cough Remedy with such good results that be wrote to know where he could get more. He was surprised to where he could get if from any draggist hard he could get if from any draggist there. This remedy is one of the mest staple are the from the front of the most reliable. Those who once give it a trial are selfour satisfied with any other. Mr. Wallace is a dom satisfied with any other. Mr. Wallace is a well known citizen of Grand View, Ma. Security Loan Co., Room 1, Warder Building, Cor. 9th and F NW

We only want what is right and never mean to ask our customers for anything but a "square deal." If an order is put in "margin three" and no "protection," that goes, even if some unusual disturbance (like the death of Governor Flower) should break the market and cause us to lose thousands of doilars. Make your order plain, when it is put in, and there will be no possibility of trouble; if a misunderstanding should arise, we will "meet you half way" in settling same. We can execute orders for Stocks, Grain, or Cotton, for cach or on margin, in the New York market, and pride ourselves on our fast execution of orders. Try us, or read our free book.
